

The Rev War Forensic Institute of the Historic Camden Foundation recently hosted a CBS News film crew here on Historic Camden's campus. The network sought us out to tell the story of our work with THE FOURTEEN.

We also shared the results of the RWFI's initial six months of research on the DNA profiles of the first two of our fallen soldiers from the Battle of Camden. We even found time to shoot our Rev War era cannon!

The story will air tomorrow morning on CBS Saturday Morning. Airing from 7AM to 9AM Eastern time, it will play at the 7:49 hour of the broadcast.

A Mindful Collaboration with CBS News:
Sharing the story of the
Camden Fourteen
